PGCPS Benchmark 3

Test Description

The RELA Benchmark #3 consists of one section of selected response items. Students may have up to 90 minutes to complete the test.

	Section 1	
Test	Number of Items	Testing Time
Grade 09 RELA	16	45 minutes (additional 45 minutes as needed)
Grade 10 RELA	16	45 minutes (additional 45 minutes as needed)

Students with an extended time accommodation may take more time and should be scheduled accordingly.

Testing Readiness

Prior to testing, the Test Administrator should confirm TestNav is downloaded and students have access on their devices. System requirement information can be found on the PGCPS-Pearson technology support page at <https://pgcps.mdassessments.com/technology-setup/>.

Prior to testing, students can view tutorials and take practice tests to familiarize them with TestNav tools and functionality. These can be found on the Test Preparation tab on the PGCPS-Pearson support page at <https://pgcps.mdassessments.com/practice-tests/>.

Technology Troubleshooting

Due to virtual learning, it is critical that the Test Administrator and students discuss testing protocols prior to testing. Test Administrators should provide a clear way for a student to communicate with the Test Administrator if technology issues arise during the test administration. Best practices have included the Test Administrator leaving the Google Classroom/Meet or Zoom open, and providing an email address, or a phone number. Test Administrators should document any technology issues and report them to the School Test Coordinator.

Testing Cautions: Coaching Prohibited

Make sure that all students understand the directions for taking the test. The Test Administrator or the proctors **may** assist the students with the mechanics of test taking, such as helping students find the correct place in the online test or how to use accessibility features online. **However**, no one should provide assistance that will inadvertently or otherwise indicate an answer; this is a test, not a learning activity. Do not indicate the correct response to any question with the exception of sample questions, if applicable.

Testing Accommodations

Testing accommodations for Special Education students, English Language Learner (ELL) students, and students with disabilities covered under Section 504 must be approved and documented according to the procedures and requirements outlined in *The Maryland Assessment Accessibility & Accommodations Policy Manual (July-2017)*. No accommodations may be made for students merely because they are members of an instructional group. Any accommodation must be based on individual needs and not on a category of disability area, level of instruction, environment, or other group characteristics. Accommodations that are available will be loaded to the Pearson platform from those entered in MDIEP. Please refer to this link for additional resources - <https://tinyurl.com/y6pcmbvt>.

Testing Environment

When in a school, provide a testing location that has comfortable seating, sufficient workspace, and good lighting. The room should be adequately ventilated and free from distracting noises. Post a “Testing: Do Not Disturb” sign on the door to prevent interruptions.

When testing in person or virtually it is important to reduce distractions as much as possible for the student.

Prohibited Aids *(Please instruct students to put away all items listed below prior to the test administration)*

- All instructional material that provide definitions or examples of concepts and terms
- Standard published English language dictionaries and thesauruses

Monitoring Student Status

Test Administrators and proctors can monitor student progress and status within the Session Detail page.

A student’s test status can be one of the following:

- **Ready** - student has not yet logged into the assessment.
- **Active** - student is currently logged in and actively testing.
- **Exited** - student has signed out of TestNav. The student test will need to be resumed within Pearson Access before the student can continue testing.
- **Requires Hand Scoring** - student has completed the test and the Teacher has to complete the hand scoring process.
- **Report Pending** - scoring is complete and student reports are being processed.
- **Report Ready** - all reports are available to view and download.

The status of each student’s test can be viewed at the bottom/right of the Session Detail page under Student List.

Student Name	Grade	SSID	Progress	Status
<input type="checkbox"/> StuLastC, StuFirstB	3	22279	Section 14/15	Active
<input type="checkbox"/> StuLastD, StuFirstB	3	22280	Section 15/15	Report Ready
<input type="checkbox"/> StuLastE, StuFirstB	3	22281	Section 2/15	Exited
<input type="checkbox"/> StuLastG, StuFirstB	3	22283	Section 0/15	Ready

Scoring Constructed Response Items

Once the student has completed the assessment and submitted their test, any constructed response items, will need to be teacher hand scored. The student status on the Session Detail screen will move to Requires Hand Scoring. Pearson will score the selected response items, but Teachers will need to score the students’ written responses within the Pearson Access platform using the embedded scoring rubrics found on this platform. Hand scoring must be completed within one week of the end of the test window.

Detailed instructions for hand scoring are available on the Internal Assessment Resource Page or on the Pearson Support Page under resources, Quick Reference Guides.

Hand scoring needs to be completed by the dates and deadlines provided by the PGCPs Department of Testing.

NOTE: Benchmark 3 English 9 and English 10 assessments do not contain any items that require teacher hand scoring.
